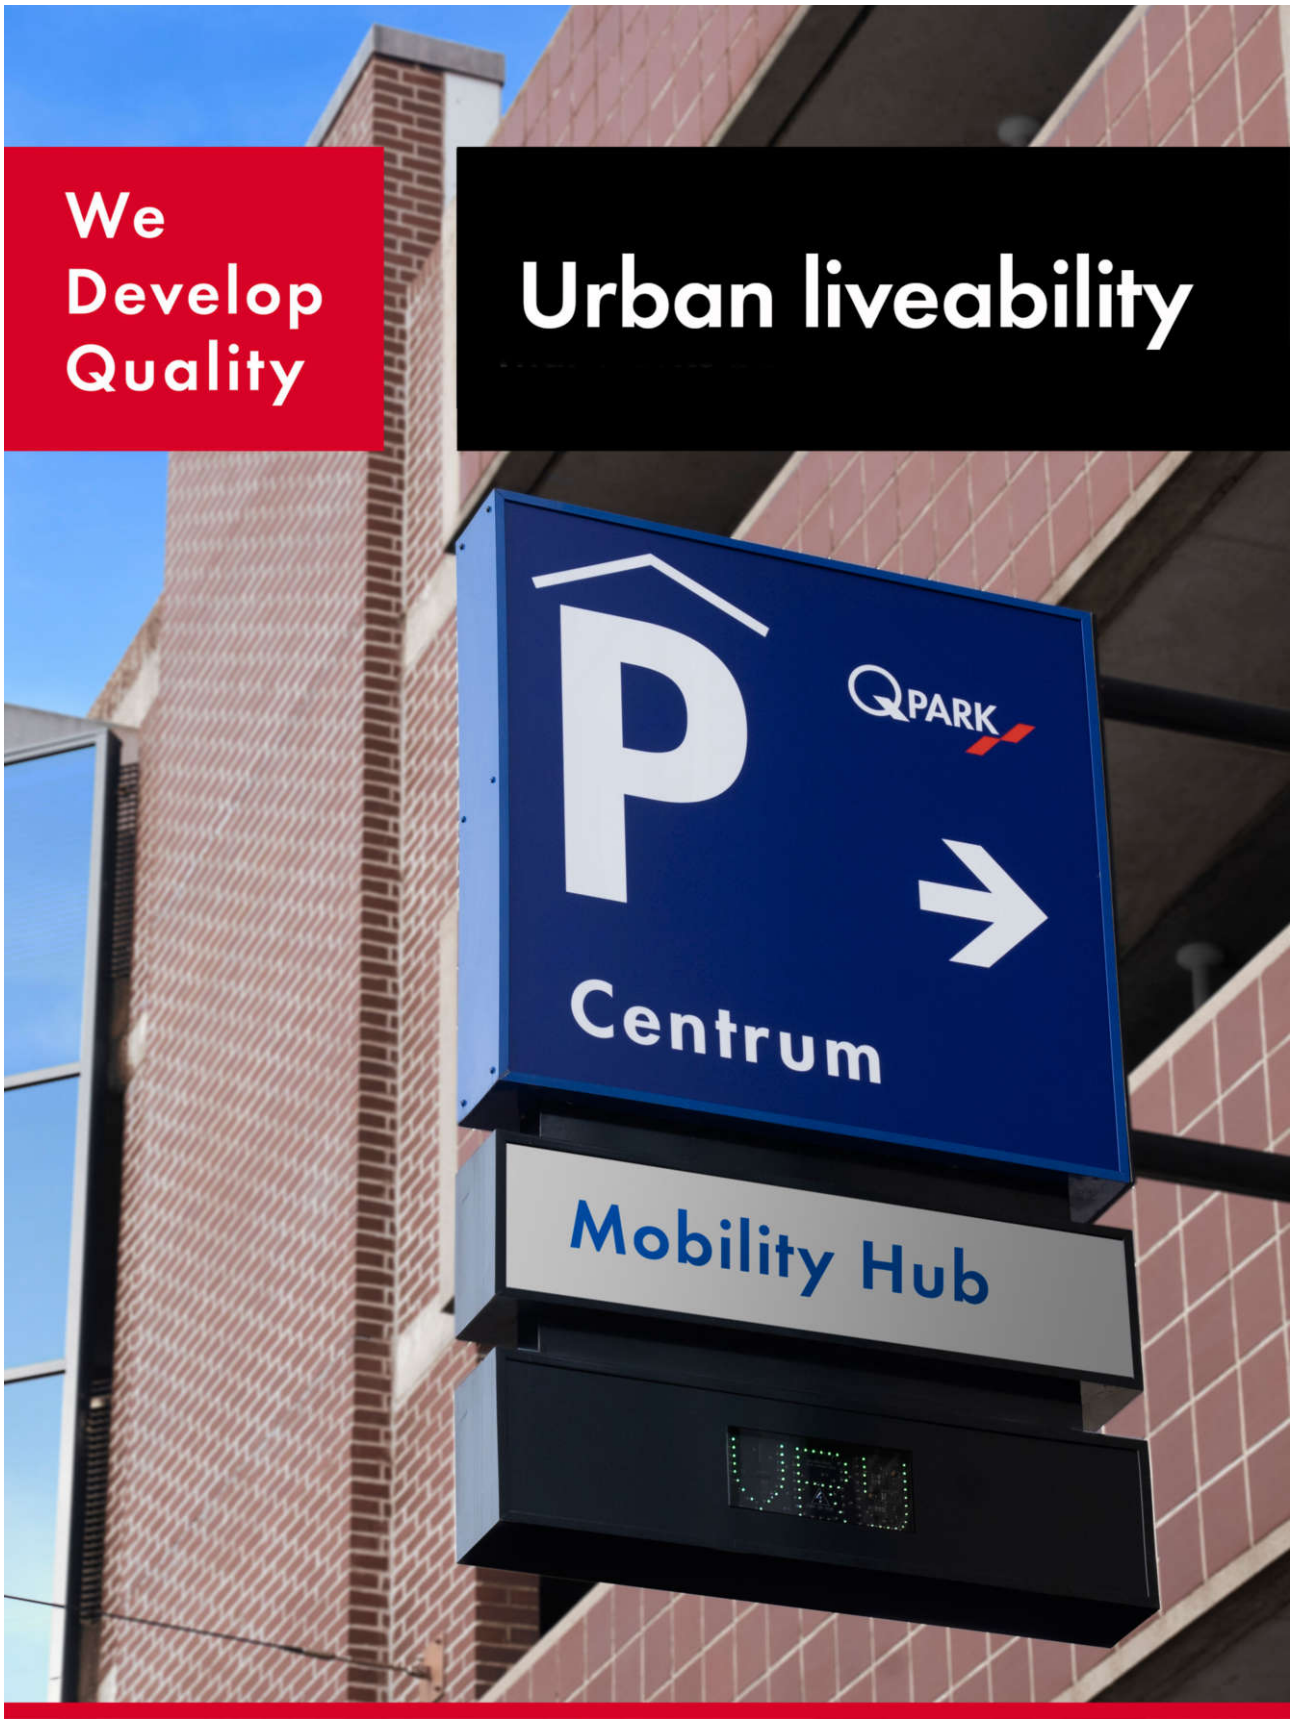
ANNUAL CSR REPORT 2024



QPARK Quality in parking

SUPPLY CHAIN

Our parking services mainly consist of providing parking spaces in purpose-built parking facilities or in off-street car parks. This can be pay-on-exit parking behind barriers, or parking paid by means of Pay & Display parking tickets, or via a parking service app. We also offer customers the opportunity to pre-book a parking space.

As we deliver a service, our supply chain mainly consists of PMS suppliers, real estate and operational maintenance suppliers. We also invest substantially in ICT systems and business intelligence to prepare Q-Park for further digitalisation and other developments. Most, if not all of our suppliers are located in western Europe.
